

WOLFRAM

May 15, 2021

To Whom It May Concern:

It is with great pleasure that we recognize Hyeon Sung Kim for contributing to the Wolfram U localization project. This project connects math and science through the Wolfram Language to reach a broad audience.

Hyeon Sung Kim demonstrated good time-management skills and a self-motivated attitude toward learning new things. He worked well as part of the team and was able to effectively multitask to ensure that assignments were looked after and completed in a professional and timely manner. We would like to take this opportunity to thank him and wish him all the best in his future endeavors.

Wolfram U offers a collection of freely available learning materials, including an expanding set of interactive open courses. These fully interactive courses include video lessons, problem sets, exercises, quizzes, scratch notebooks and exams, all in an easy-to-use interface. Certifications are available at multiple levels in Wolfram technology and topic-specific applications.

On behalf of the Wolfram U team,

Andre Kuzniarek
Executive Director & Chief of Operations
Wolfram Research, Inc.
